Garage Doors

# FINGERSAFE® SECTIONAL DOOR RANGE

Proudly Western Australian owned and operated, Jason and Sue of Ultimate Garage Doors have been installing and repairing residential garage doors in Perth for over 16 years.

Because we care, we use only the highest quality products. We use Centurion® garage doors with panels made with Colorbond® from BlueScope® steel. Our garage doors also come with Centurion® patented FingerSafe® technology, nylon

polymer hinges and a sturdy galvanised track. Matched with the revolutionary Avanti MPS or DPS (battery backup), DC whisper quiet motor and equally well known Merlin garage door opener, you will be safe in the knowledge that you have chosen the best and safest residential garage door installers to keep your family and your possessions secure.

<b>CEDAR</b>	■	✗

✗ Colour not available. ■ Optional - surcharge applies.

The Colorbond<sup>®</sup> BlueScope<sup>®</sup> steel colour swatches and images shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may effect colour tones.

To determine the most suitable material for your project, please contact Ultimate Garage Doors.

ULTIMATE GARAGE DOORS

Ultimate Garage Doors Perth are located south of the river central to Canning Vale, but happily service all of the Perth metro areas
